Logging on securely

We recognise how important security is for your online banking so we will ask you for a new six digit code (One Time Password) each time you log on. You can choose to receive this One Time Password via SMS to your mobile phone, or you can generate the One Time Password using a secure Token, which we will send to you in the post with instructions how to use it. SMS may be more convenient if you always have your phone with you, but the service cannot be guaranteed in areas of poor mobile reception. If you are aware of mobile reception issues in your area, we recommend you opt for the Token. For security purposes, you can only choose one option, not both.
