Key Features

Boxes are manufactured by the Chubb Safe & Lock Company and constructed from solid steel. They are highly resistant to fire, flood, heat, explosions and other adverse factors. We use the term 'resistant' because no provider can offer 100% security against damage. Our vault area is comprehensively monitored by 24 hour CCTV backed by the latest motion detectors, linked to our Head Office in the City of London.

We offer three box sizes: small, medium and large. Please contact your Relationship Manager for Terms and Conditions and a current price list or enquire in branch.

SIZE	DIMENSIONS
Small	20 x 20 x 55cm
Medium	20 x 30 x 55cm
Large	40 x 40 x 55cm

Accessing Your Safe Deposit Box

You may access your safe deposit box as often as you like during normal office hours; there is no charge for these visits nor do you ordinarily need to make an appointment – we will be delighted to be of assistance, at your convenience.

Our safe deposit box access procedures, however, are very robust; strict identification and verification requirements will always be enforced. These measures are intended to ensure that you are afforded all the privacy and security you would expect.

- * Each safe deposit box visit will be recorded.
- * When you visit, you will be asked to provide your signature and photo ID.
- * Unless prior arrangements have been made and documented, the Bank does not permit any Third Party access. Any such arrangements would need to be made in accordance with the formal mandate and authorisation must be given by the main Lessee(s).
- * You will be provided with a private room to access your safe deposit box.

Keys, Contents and Insurance

You will be given a set of two keys for your safe deposit box. We recommend that prior to enrolling in our safe deposit box service you take time to read through our Terms & Conditions and please ask for clarification should you have any queries. The Bank will retain its master key, which can only be used in conjunction with the box holder key.

If you were to lose a key (or keys), the Bank should be informed immediately so that we can protect the box from unauthorised entry, have the lock cylinders replaced as soon as possible, and provide you with replacement keys. There would normally be a charge for this service.

It is important to note that as box contents are not known to the Bank, we cannot provide an insurance policy for the items stored. Customers are, therefore, advised to make their own insurance policy arrangements.

While you are not required to disclose the contents of your safe deposit box to the Bank, it is advisable to keep a list for your own records, plus photocopies of important documents and photographs of jewellery, antiques or other valuable items. You may not deposit certain items into the Safe Deposit Boxes, please refer to our Safe Deposit Box Service Terms and Conditions.
